As demand for boats and outdoor experiences grows, boat builders rush to meet the surge in interest. Today's center console fishing boats cater to both

hardcore anglers and those with families looking for quality adventures.

From skiffs to yachtlike offshore vessels, here are some of the most recently introduced top boat models in a variety of price ranges and styles. They're listed alphabetically by brand.

(If you're looking for vessels in specific size ranges, these galleries also feature best boats):

Specifications: LOA 33 ft. 1 in.; Beam 10 ft. 9 in.; Dry Weight 8,500 lb.; Fuel 327 gal.; Transom Deadrise 20 deg.; Max HP 700 hp. *Grady-White*

---

Grady's Canyon 326 features a strategic console design, with a full-height windshield and integral superstructure that creates a haven for the helmsman and wide walkways for anglers. A rigging station aft of the helm seating, standard 32-gallon livewell, and an 80-gallon fish box in the transom highlight the fishing amenities.
