

GRADY-WHITE'S CANYON 336

DELIVERS BEST OF EVERYTHING

An exceptional 33-ft. center console, Grady-White's Canyon 336 provides the best of everything you'd expect, and more, in a boat of its size. As with all Grady-White boats, the 336 starts with superior quality, reliability, safety, performance, and long-lasting value. Ranked highest in every measure of excellence in any marine industry study ever done, Grady-White Boats sets the standard that all other boating manufacturers try to follow. The numerous enhancements and

upgrades that Grady's engineering team incorporated into the redesigned 336 exemplifies the effort they put into continuing the company's tradition of designing exceptional boats for the entire family. From the sleek styling elements that make it an elegant beauty to the abundant number of bells and whistles that make it a well-outfitted fishing machine, you're going to love this boat!

Implementing Grady's state-of-the-art all-glass full-height windshield

improves line of sight and combining it with the fiberglass T-top creates a superstructure that eliminates the need for side curtains, providing ample space for three at the helm. The new console and T-top is a real space saver, allowing added walkaround capacity on each side. An all-new helm design includes room for dual 17" flush mount electronic panels strategically located closer to the captain. Chock full of options, the 336 will boost your boating experience! From bow thruster and

2021 NEW BOAT MODELS

Yamaha Helm Master EX® Digital Electric Steering to a water heater, air conditioner, and diesel generator, the Canyon 336 is a high-performance boat that doesn't compromise the quality and comfort that's synonymous with the Grady-White brand.

With a standard port cockpit door and boarding ladder, loading and unloading are a breeze. If you're looking for easy access from the starboard side, the patented cockpit step is an option. Additional standard features in the cockpit include dockside power, an easily accessible engine flush system, transom door, and an integrated swim platform with a 4-step

ladder. Anglers will appreciate horizontal storage for three rods, eleven-rod holders, and a 291-quart insulated fish box with lights and an optional refrigerator/freezer system. Forward and aft pressurized raw and freshwater washdowns offer added convenience while on the water.

The lockable console interior outclasses the competition with a standup head area, shower, and Corian® countertop with stainless steel sink. The cushioned berth with a flip-up backrest adds to the comfort and convenience of the 336. Other enhancements include composite cherry and holly sole, built-in storage under a lift out Corian® lid, recessed

indirect lighting, and a side window to let in natural light, complete with tinted privacy glass. And if you're looking for more storage, you'll find it here with six vertical rod holders, two drawers under the sink, aft storage with curtain cover, and bulk storage under the berth with a flip-up backrest.

All built on Grady's exclusive SeaV2® hull, you'll find no finer boat that delivers a drier, softer ride. To see a complete list of standard features and the many options that make the 336 your first choice for boating satisfaction, visit gradywhite.com.
