

JUST SPLASHED BY JEFF MERRILL

GRADY-WHITE 218

Grady-White's Adventure 218 walk-around cabin offers a spacious layout with plenty of usable space and versatility for a boat its size. A widened beam, the largest of any 21-foot boat in its class today, accommodates a roomy cockpit complete with cushioned deluxe helm and companion chairs. Cushioned fish boxes behind the helm seats, and aft seats with reversible self-stowing cushions with non-skid safety treads provide seating for multiple passengers. The 218 also boasts an extended and modernized helm dashboard that provides ample space for electronics and other features needed for both day and night travel. The addition of two integrated platforms aft, along with easy access from pivoting seat backs, make fighting fish from the stern as effortless as along the walk-around sides and bow.

The roomy cabin interior includes cushions with storage hatches below, as well as a covered head to starboard. There's space for over-nighting, and two side windows and a forward hatch keep cabin air fresh while indirect lighting on a remote switch illuminates the way. Other features include abundant storage space in the cockpit and cabin, as well as removable drop-in boxes below the aft seats that provide easy access to the bilge and batteries. Two insulated fish boxes, 106-quart at starboard and 100-quart at port, provide plenty of room for the day's catch. There's also storage for 10 rods, six stainless pull-up cleats, and stainless overboard draining cup holders strategically placed throughout the boat. Optional features available include a painted aluminum frame hardtop with four additional leg-mount rod holders, a 25-gallon livewell, stainless anchor roller, and 10-gallon freshwater shower. **Contact:** Grady-White Boats at: 252-752-2111 or visit www.gradywhite.com.
