

JUST SPLASHED BY JEFF MERRILL

GRADY-WHITE CANYON 386

Building on the success of the Canyon 376, the new Canyon 386 from Grady-White is designed with an eye toward fishability and luxury. An extra wide beam provides a roomier cockpit and console interior, as well as an expansive helm area where four adjustable deluxe contoured helm chairs with flip-up bolsters and fold-down arm and footrests sit behind the wraparound windshield. The helm offers a large flush-mount electronics area while an integrated AV2 T-top encompasses the helm area and all four seats and comes with a standard SureShade, see-through hatch, storage net, radio box, six rod holders, and LED spreader and recessed lights. A port-side aft-facing sliding door provides cabin access, which is equipped with an enclosed head with sink, china head, and stand-up shower. The galley has a stainless steel sink, microwave, large refrigerator drawer, and a cherry dinette table that converts to a double berth. Other features include air conditioning, ample dry storage, space for eight rods, and a standard 24-inch TV.

Access the cockpit from the dock or the water through port and starboard side doors. Along the transom are dual 35-gallon livewells that flank a 291-quart insulated refrigerator/freezer fish box. The leaning post with six rod holders, knife and plier holders, and Corian countertop serves as a bait station or an entertainment area complete with sink, drawer storage and optional grill. The transom has two storage units and a foldaway aft bench seat. The bow area has a 48-inch lounge with storage drawers below, port and starboard lounge seats with electrically adjustable backrests and port and starboard 149-quart insulated fish boxes and a casting platform. **Contact:** Grady-White at 252-752-2111 or visit www.gradywhite.com.
