

# Dock Lines

Your connection to *The Grady Life*.

## Third Grady's the Charm

Earl Wivell loved his two previous Grady-White boats, a *Tournament 19* and an *Advance 247*. But as soon as he saw Grady-White's newest model at a 1997 boat show he was ready to trade. Back in Naples, Florida, he quickly visited his dealer, Naples Boat Mart, to purchase an *X-26 Tigercat*—the type of boat he'd dreamed of owning since he was 10 years old.

## Dolphinfish Research

Grady-White Boats has supported the Dolphinfish Research Program—the largest initiative to investigate the movement and population of dolphinfish—since the program's inception in 2006. In early May, they deployed their 10<sup>th</sup> satellite tag, sponsored by Grady-White. This tag along with many others goes a long way toward understanding the routes these fish take. This research will help ensure sustainable dolphinfish management for the future.

We're anxiously awaiting news of the Grady-White-tagged fish and hope to bring you an update in an upcoming issue of our *Docklines* newsletter.
