## 77 Boats – That’s an Impressive Raft-Up

For the third consecutive year, La Familia Grady-White Puerto Rico organized a record-breaking Grady raft-up. This year, 77 boats gathered in Sun Bay for a weekend of fun for a great cause. Hundreds of smiling faces hit the beach for a vibrant and family-friendly party that sparked excitement and camaraderie while raising funds for Fe Que Transforma, a local non-profit that supplies meals to those in need on the island.

## Conservation: A Grady-White Hallmark

Supporting aquatic conservation is a core value of Grady-White Boats. One important conservation organization is the Beyond Our Shores Dolphinfish Research Program; the largest initiative to investigate the movement and population of dolphinfish. Recently, the organization made tagging history when they placed their first satellite tag, sponsored by Grady-White Boats, on a dolphinfish in North Carolina waters. This video tells the story of that day’s tagging expedition.

## Delivering the Ultimate Boating Experience

Grady-White’s dedication to continuous improvement shines with a new laminated glass windshield design for the Canyon 306. Integrated into the T-top, the new windshield provides even better visibility from the helm, and the full-height, bonded glass offers more protection from the elements.
