**GREENVILLE, NC** – Grady-White’s new Freedom 345 exceeds expectations and takes the lead in its class! Superbly engineered and designed specifically for dual console lovers who want to experience the fine craftsmanship, luxury features, and innovative designs typically found on larger boats, the 345 perfectly combines the comfort and style of the Freedom 415 with the rugged fishability of the Canyon 456 to deliver ultimate satisfaction in a slightly smaller package. Climb aboard to see how Grady-White’s brand pillars have been poured into the soul of this new model. From the exceptional attention to detail and legendary performance to comfort and safety from stem to stern, the 345 delivers a level of satisfaction only found on a Grady-White.

“We recognized our customers strong desire for top-of-the-line design details which we noted in their reaction to the Canyon 456, 386, and Freedom 415. With this in mind, we made sure to include similar amenities while planning the 345,” said Christian Carraway, Grady-White Product Designer. “This results in a truly remarkable boat that we’re sure is going to delight the most discerning customer – particularly those who love to entertain family and friends as much as they enjoy a day of offshore fishing.” The Freedom 345 is loaded with the fishing foundations

expected in all Grady-White boats and has the creature comforts that make it a next-level luxury cruiser too.
