

Experience the Best: New Center Console Boats of 2024

DAY DREAMING

May 31, 2024 in Boats, Center Consoles

Grady-White Boats

Whether it's fishing shallow waters or spending time on a sandbar, the new 231 Coastal Explorer from Grady-White Boats has got it covered. Serious anglers will appreciate the bow and aft casting platforms, 277-quart fish box, 19 rod holders, tackle stowage, and a 25-gallon livewell. The 231 CE (22' 7" LOA, 8' 6" beam) has a lockable console with a stand-up head and can also be used for bulk storage. The helm has space for two 12-inch displays that are protected by a T-top with an integrated windshield. For power, the 231 CE comes with a single 250-hp Yamaha outboard with a cruising speed of 27.9 mph and a 48.8-mph top speed. gradywhite.com
