

GRADY-WHITE EXPRESS 340

A NEXT-GENERATION MARVEL,

Grady-White's new Express 340 reimagines the groundbreaking and beloved Express 330, elevating a legendary classic with luxurious comfort and modern-day convenience.

The evolution begins at the elevated helm, where a deluxe contoured captain's chair sits starboard and a wraparound companion bench seat with an electrically adjustable table offers comfort to port. This refined layout opens to a single sliding door and floating stairs into the center of the expansive cabin below. Inside, you'll find sleeping quarters for four in an aft berth and a V-berth that converts into a table for five. A well-appointed galley, complete with a microwave, stove, refrigerator and sink, sits alongside an enclosed head featuring a sink, stand-up shower and toilet. Expanded cabinetry and creative storage solutions are just some of the many upgrades that make it a breeze to visit your favorite port of call for a long weekend excursion.

In the cockpit, convenience comes standard with port and starboard fuel fills, dual cockpit side doors, a 166-quart insulated fishbox, with optional refrigerator/freezer with

a digital thermostat, an 81-quart insulated cooler with a recessed faucet, and a 32-gallon livewell. An aft-facing deluxe mezzanine seat with a flip-up bolster, pull out footrest and dedicated tackle storage below cleverly folds down to reveal a counter and bar with a retracting storage door. A rigging station with sink and storage completes the entertainment or fishing area, and can be equipped with an optional grill and refrigerator.

The Express 340 is built on Grady-White's award-winning SeaV² hull and powered by triple Yamaha 350s or twin 450s with Helm Master EX with Full Maneuverability. The AV² hardtop enclosure boasts a storage net, lights, rod holders and SureShade for all-day protection from the sun and elements. Finishing touches that make this a best-in-class boat include indirect accent lighting throughout the helm and cockpit, USB ports in all seating areas, a wireless phone charger at the helm, a cockpit pull out shower with a hot/cold mixer, and an anchor windlass with remote switches at the helm and the windlass.

Ready to cruise like royalty? The Express 340 is your dream come true!
